THE GIFT OF LIFE MID-SOUTH NEWSLETTER

Child #90:
Nayeli from Honduras

Volunteer of the
Month

Nayeli Marisela Leiva, a seven-year-old from Honduras, arrived in Memphis on October 28th with her mother, Gisela. Nayeli's surgery was a success and she is already back at the FedEx Family House recovering! She has two follow-up appointments with the Le Bonheur Clinic, with the hopes of returning home within about a week. Another GOLM child saved! The Rotary Club of Memphis is sponsoring this family—thank you SO much to Rotarians, Chessie Biggam and Christine Pascus, for taking the lead on caring for this beautiful family!

Please sign up to take them a meal:

A BIG thank you to Yamile Orrego, a Volunteer through Latino Memphis, who was there to greet Gisela and Nayeli when they arrived in Memphis and helped them get settled in to the FedEx Family House! Yamile then took Nayeli shopping for much needed tennis shoes and showed the family some of the Memphis sites, including Tom Lee Park to see the Great Mississippi River. We sincerely appreciate your dedication to our families, Yamile!

WE LOVE OUR VOLUNTEERS

AmazonSmile is a website operated by Amazon with the same products, prices and shopping features as Amazon.com. Except when you shop on AmazonSmile, 0.5% is donated to the charitable organization of your choice. Please login and select **Gift of Life Mid-South** as your organization of choice!

Ways to Help

Financial Support

Your donations go directly to help the children we bring to Le Bonheur Children's Hospital. All GOLM-affiliated hospitals charge a nominal fee to cover basic hospital costs. Funds are also used for incidental expenses while the family is staying in Memphis at the FedEx Family House.

Volunteer

Rotary Club and Latino Memphis volunteers are a critical part of the Gift of Life mission. Volunteers and their families have the opportunity to get to know our guest families on a personal level. The host Club provides meals and transportation during the family's stay in Memphis. Volunteers also accompany families to clinic visits and provide support during the hospital stay.
