## New Le Bonheur Addition

Le Bonheur's Heart Institute has experienced significant growth in the past five years. To meet the growing need for pediatric cardiac care, Le Bonheur has created a 31-bed dedicated Cardiovascular Unit, adding 10 Cardiovascular Intensive Care Unit beds to the existing 10-bed unit, and creating room for an 11-bed stepdown cardiac unit.

The Heart Institute expansion also includes a new hybrid Magnetic Resonance Imaging (MRI) and cardiac catheterization (cath) lab. This suite allows experts in Le Bonheur's Heart Institute to access highly efficient quality imaging, allowing them to make better diagnoses more quickly.

Le Bonheur's interventional cardiac MRI suite is the first in the state of Tennessee and is only the eighth in the country. The Heart Institute expansion enables Le Bonheur medical staff to care for even more kids and continue to be at the forefront of the latest technology as they constantly find new and improved ways to treat patients safely and efficiently.

## Support Us

Your donations go directly to help the children we bring to Le Bonheur Children's Hospital. All GOLI-affiliated hospitals charge a nominal fee to cover basic hospital costs. Funds are also used for incidental expenses while the family is staying in Memphis at the FedEx Family House.

[Donate](#)

Rotary Club and Latino Memphis volunteers are a critical part of the Gift of Life mission. Volunteers and their families can get to know our guest families on a personal level. The host club provides meals and transportation during the family's stay in Memphis. Volunteers also accompany families to clinic visits and provide support during the hospital stay.
